Poštovane kolegice i kolege, dragi prijatelji,

Zadovoljstvo nam je da vas obavestimo da će se 9. Kongres farmaceuta Srbije sa međunarodnim učešćem, pod nazivom „Farmaceuti u vremenu izazova – snaga znanja, moć promene“, održati u Hotelu Crowne Plaza u Beogradu od 14. do 17. oktobra 2026. godine.

Živimo i radimo u vremenu ubrzanih promena, intenzivnog razvoja naučnih saznanja i tehnologija, ali i sve složenijih zdravstvenih sistema, novih profesionalnih uloga i očekivanja koji se pred nas postavljaju. U tom kontekstu, cilj Kongresa je da osnaži farmaceute da adekvatno odgovore na postojeće izazove i budu proaktivni nosioci pozitivnih promena ključnih za unapređenje zdravstvenog sistema, održivi razvoj farmaceutске profesije i kontinuirani profesionalni i lični razvoj.

U skladu sa prepoznatim izazovima u farmaceutskoj nauci i praksi, program Kongresa koncipiran je u okviru pet tematskih oblasti, Personalizovano, Inovativno, Digitalizovano, Održivo i Profesionalno, u kojima će biti predstavljena najnovija naučna saznanja i njihova primena sa ciljem unapređenja profesionalne prakse, poboljšanja zdravstvenih ishoda pacijenata, očuvanja javnog zdravlja i ukupne dobrobiti stanovništva.

Kongres farmaceuta Srbije je mesto susreta, zajedničkog učenja, povezivanja i druženja. U ime Naučnog odbora i Saveza farmaceutskih udruženja Srbije, pozivamo vas da planirate vreme i učeše na predstojećem Kongresu. Takođe vas pozivamo da na Kongresu predstavite rezultate svojih istraživanja, inicijativa i dobrih praksi, da podelite sa kolegama savremena znanja i iskustva iz oblasti farmaceutске nauke i prakse i svojim aktivnim učešćem doprinesete uspehu ovog skupa.

Srdačno,

prof. dr Jelena Parojić
predsednica Naučnog odbora

prof. dr Branislava Miljković
predsednica Saveza farmaceutskih udruženja Srbije

Dear colleagues, dear friends,

We are very pleased to inform you that the 9th Congress of Pharmacy of Serbia with international participation, entitled “Pharmacists in Challenging Times: Empowered by Knowledge, Leading the Change,” will be held at the Crowne Plaza Hotel in Belgrade from October 14 to 17th, 2026.

We live and work in a time of rapid change, intensive development of scientific knowledge and technologies, as well as increasingly complex healthcare systems, new professional roles, and growing expectations placed upon us. In this context, the aim of the Congress is to empower pharmacists to respond effectively to current challenges and to become proactive drivers of positive change essential for improving the healthcare system, sustainable development of the pharmacy profession, and fostering continuous professional and personal growth.

In line with the recognized challenges in pharmaceutical science and practice, the Congress programme will be structured around five thematic areas – Personalized, Innovative, Digitalized, Sustainable, and Professional – within which the latest scientific insights and their practical applications will be presented with the aim of enhancing professional practice, improving patient health outcomes, safeguarding public health, and contributing to the overall well-being of the population.

The Congress of Pharmacy provides a space for meeting, shared learning, networking, and collegial exchange. On behalf of the Scientific Committee and the Pharmaceutical Association of Serbia, we invite you to save the date and participate in the upcoming Congress. We also encourage you to present the results of your research, initiatives and good practice, to exchange knowledge and experience across different fields of pharmaceutical science and practice, and to actively contribute to the success of the forthcoming meeting.

Sincerely,

Prof. Jelena Parojić
President of the Scientific Committee

Teme kongresa

U skladu sa prepoznatim izazovima u farmaceutskoj nauci i praksi, program Kongresa definisan je kroz pet tematskih oblasti (Personalizovano, Inovativno, Digitalizovano, Održivo i Profesionalno) u okviru kojih će biti izneta najnovija naučna saznanja i implikacije za njihovu primenu s ciljem razvoja profesionalne prakse, unapređenja zdravstvenih ishoda pacijenata, kao i očuvanja javnog zdravlja i dobrobiti stanovništva.

Na Kongresu će biti održane i sesije u organizaciji Farmaceutске komore Srbije, Agencije za lekove i medicinska sredstva Srbije i Privredne komore Srbije.

Tematska oblast „**Personalizovana terapija**” obuhvatiće savremene aspekte razvoja i primene bioloških lekova, koncept precizne medicine, kao i strategije za unapređenje zdravstvenih ishoda kod osetljivih populacija pacijenata, uključujući decu, starije osobe, zdravlje žena, mentalno zdravlje, zdravo starenje i dugovečnost.

Tematska oblast „**Održivi razvoj u farmaciji**” obuhvatiće različite aspekte doprinosa farmaceuta očuvanju zdravlja planete, borbi protiv antimikrobne rezistencije, održivog razvoja farmaceutске prakse, kao i novih paradigmi u otkriću, razvoju, proizvodnji i kontroli kvaliteta lekova u skladu sa principima održivog razvoja.

Tematska oblast „**Profesionalizam i profesionalni razvoj farmaceuta**” biće posvećena novim profesionalnim ulogama farmaceuta u okviru integrisanog modela zdravstvene zaštite, posvećenosti unapređenju zdravstvenih ishoda pacijenata i suočavanju sa izazovima savremenih zdravstvenih sistema.

Tematska oblast „**Digitalizacija u farmaceutskoj nauci i praksi**” biće posvećena digitalnoj transformaciji farmaceutске prakse, primeni modelovanja i simulacije u razvoju i optimizaciji primene lekova, kao i različitim aspektima korišćenja veštačke inteligencije kao pokretača promena u farmaceutskoj nauci i praksi.

Tematska oblast „**Inovacije u farmaceutskoj nauci i praksi**” obuhvatiće prikaz rezultata najnovijih istraživanja u oblasti otkrića, razvoja i kliničke primene lekova, savremenih terapijskih sistema, prirodnih proizvoda, otkrića i primene biomarkera. Pored predavanja po pozivu, u okviru ove tematske oblasti planiran je veći broj usmenih saopštenja i predstavljanje naučno-istraživačkih projekata koji se realizuju u domaćim naučnoistraživačkim organizacijama.

Congress themes

In line with the recognized challenges in pharmaceutical science and practice, the Congress program has been structured around five thematic areas (Personalized, Innovative, Digitalized, Sustainable, and Professional), within which the latest scientific findings and implications for their application for the advancement of professional practice, improvement of patient health outcomes, and safeguarding public health and population well-being will be presented.

Congress Programme will also include sessions organized by the Pharmaceutical Chamber of Serbia, the Medicines and Medical Devices Agency of Serbia, and the Chamber of Commerce and Industry of Serbia.

The thematic area **"Personalized Therapy"** will cover contemporary aspects of the development and application of biological medicines, the concept of precision medicine, and strategies for improving health outcomes in vulnerable patient populations, including children, older adults, women's health, mental health, healthy aging, and longevity.

The thematic area **"Sustainable Development in Pharmacy"** will encompass different aspects of pharmacists' contributions to planetary health, combating antimicrobial resistance, sustainable development of pharmaceutical practice, as well as new paradigms in the discovery, development, manufacturing, and quality control of medicines in accordance with the principles of sustainability.

The thematic area **"Professionalism and Professional Development of Pharmacists"** will focus on new professional roles of pharmacists within the integrated healthcare model, dedication to patient health outcomes improvement, and addressing the challenges of modern healthcare systems.

The thematic area **"Digitalization in Pharmaceutical Science and Practice"** will be dedicated to the digital transformation of pharmaceutical practice, the application of modelling and simulation in drug development and optimization of medicines use, as well as various aspects of the use of artificial intelligence as a driver of change in pharmaceutical science and practice.

The thematic area **"Innovations in Pharmaceutical Science and Practice"** will present the latest research findings in the fields of drug discovery, development, and clinical application, advanced therapeutic systems, natural products, and the discovery and application of biomarkers. In addition to invited lectures, this thematic area will include a number of oral presentations, as well as presentations of research projects conducted in national scientific research organizations.
